TELTONIKA

FM2100
GPS/GSM terminal

- Car security / tracking
- Parametrized operation (acquire & send)
- ALARM button (2 inputs)
- Online tracking
- Geo-fence
- Motion sensor

FM2100 is light terminal with GPS and GSM connectivity, which is able to get device coordinates and other data and transfer them via GSM network. This device is perfectly suitable for applications where location acquirement of remote objects is needed. So you can track your remote objects (trucks, cars, ships etc) quickly and easily.

FM2100 can perform tasks on remote objects, such as monitoring engine status, controlling truck's door etc.

In case of loosing connection FM2100 can store up to 15000 records, and once the connection is established the device will send stored data via GPRS. So you won't lose your data (coordinates, sensors data and ect.).

APPLICATIONS

- Security
- Track and trace
- Road assitance
- Toll collect
- Insurance

TECHNICAL DETAILS

GSM

Quad-band 900 / 1800 MHz; 850 / 1900 MHz
GPRS class 10 (up to 85,6 kbps);
SMS (text / data);

GPS

SuperSense solution
16 channel GPS receiver
-158dBm sensitivity

INTERFACE

2 Digital Inputs
2 Digital Outputs
Power supply +12V…+24V
RS232 interface
Configuration and firmware upload
NMEA (navigation output)
Internal GSM antenna
Internal/External GPS antenna (option)

FM2100

GPS/GSM terminal

FEATURES

• GPS and I/O data acquisition
• Real Time tracking
• Smart algorithm of data acquisition (time, distance and event based)
• Sending acquired data via GPRS (TCP/IP and UDP/IP protocols)
• Smart algorithm of GPRS connections (GPRS traffic saving)
• Operating in roaming networks (preferred GSM providers list)
• Events on I/O detection and sending via GPRS or SMS.
• Scheduled 24 coordinates SMS sending
• 5 geofence zones (rectangular or circle)
• Sleep mode (saving vehicle's accumulators)
• OTA (firmware updating via GPRS)
• Motion sensor
